[The highlights of Bonhams' Aston Martin Works sale 2014](#)

Lead

On May 17, Bonhams will hold its annual (and usually eventful) single-marque auction at Aston Martin Works' Newport Pagnell headquarters. The sale has conjured up some surprise results in recent years; one nicely set up to cause a stir this year is the sale of the Persuaders DBS...

Even Bonhams had difficulty coming up with an estimate for the legendary [Aston Martin DBS from *The Persuaders!*](#), such is the lack of a precedent – but having recently spent a day in its company, we see why it could sell at the top end of (or perhaps beyond) its pre-sale valuation of £350,000 - £550,000. As attendees at previous Works sales at [Newport Pagnell](#) will know, *much* more 'brow-raising' results have been achieved in the past.

A category that has proved to be a success at the last few Bonhams Aston Martin sales is that of the [barn-find](#) – and it'll come as no surprise that a selection of 'projects' are included in the lotlist this time around. Or, if you prefer your Aston 'ready-to-go', why not take a look at the [DB4 GT Zagato recreation by Bodylines](#), predicted to fetch £800,000 – £900,000?

We've selected our favourites from the [full list of Aston Martin cars and collectibles from the sale](#) below.
