### Description

After the full strength sports car that was the 300SL Gullwing of 1954, the 190SL launched the following year and shared many of the Gullwings styling features though was designed to be more of a gentle GT cruiser. Rather than the 300SL's three-litre, six cylinder engine, it was given four cylinders, 1.9 litres and 104bhp. Although a modest performer, the 190 SL proved to be very popular with close to 26,000 units sold in its eight year run.

We are currently awaiting a full documented rebuild programme for the restoration of 'TLB 8' by marque specialist Redcastle Classics. For further information please contact Barry Clow on 07894 995007 but more details will be following here shortly.
