Description

The benefactor of a professional restoration, this Healey's paintwork is done in a typical red that suits the roadster well. The paint shines well and provides a nice backdrop for the bright work that trims the British machine. The interior has also been professionally restored in black with red piping to match the body. With the side draft carburetors tuned and the engine running properly providing all 90 hp to the wire wheels this first of the Healeys is ready for touring or the local shows. Whatever your pleasure this roadster will be a bright spot in any collection.
