		Fuel type	Other
		Exterior colour	Other
		Car type	Other

## Description

---

French registration

- A rare model
- Meticulously maintained
- Powered by the famous Ferrari Dino V6
- One of 420 units produced

This beautiful Dino Spider on offer, with the 2.4-litres Ferrari engine, was sold new in France and belonged to Jacques Trouillard for many years. We contacted him on the phone and thank him for the following comments: "I bought this Dino from a board member of the Club Dino France. The car had been completely restored with great care. I have owned it for at least 25 years and have driven it at various rallies and tours. This is a car with very pleasant road manners with a lively engine!" The current owner is a woman with taste and elegance, living in the mild temperatures of the French Riviera, an enthusiast of beautiful Italian automobiles. A Ferrari 365 GTC/4 has already taken the place of the Spider in her garage.

The interior has two beautiful black leather seats in excellent condition, near-new red carpets, etc. Everything is ready for you to drive the car right away. The body and paint are in good condition. The mechanicals function very well. The design of this spider blends sportiness with sensual curves. Its front is outstanding containing a legendary engine developed by Maranello. This is an easy and

reliable car for pleasure and us. A car you will quickly fall in love with...
