Description

Italian registration

- Genuine Taxi version, rare and unusual
- In beautiful condition
- One of oldest versions of the Multipla
- No reserve

The car on offer is a very rare Multipla Taxi in its original guise. The car was rescued and restored in the 1990s, and it received a recent refurbishment of the entire upholstery, an overhaul of the mechanicals and a restoration of the body.

According to the owner this car would have been used in Rome by the Cinecitta studios in several films and television series. It is a rare four-door taxi version with a folding rear bench seat that drops down to the floor. This modularity makes this a precursory "minivan" particularly convenient. It seems to be very complete, with its old taxi badge, its mechanical period meter and the rear plate indicating the license number "Roma 1232". On the old Italian "Libretto", it appears that the Multipla was authorized to perform "Servizio Pubblico". Moreover, it is a very old version, produced during the first year of the launch of the model. Based on the platform of the Fiat 600, the Multipla was a major success that had a product life cycle of almost 10 years till 1965.

Very original in this taxi version, this Multipla is in nice condition and is sure to appeal to the public, whether in the street or at the classic car events!
