

CLASSIC DRIVER

This Dutch Ferrari Testarossa is our kind of 'Miami Ice'

11 March 2015 | George Chapman

Prins Classics welcomes a gleaming white 1987 Ferrari Testarossa to its snow-covered Netherlands premises, in this beautifully shot video clip...

The movie car for Miami Vice

Swapping sea and sunshine for ice and snow, this Prancing Horse is a long way from where it made its name – as Don Johnson's car of choice used for apprehending drug traffickers along sunny South Beach, in the 80s undercover police drama series, Miami Vice. In the video, [a similar Bianco-coloured flat-12 supercar](#) is seen starting from cold in a private garage, before tackling snow-covered woodland roads and, finally, arriving at the classic car specialist's premises.
