[Is this steamer trunk the ultimate gentleman's travel companion?](#)

Lead

Sadly, gone are the romantic days of travel and exploration, when gentlemen would be away for months, living from a steamer trunk containing every item one could possibly need. Why not buck the trend, with this case built by Globe-Trotter in collaboration with Scotch whisky maker, Chivas Regal...

Complete with a minibar (stocked with Chivas, of course), shoe and watch compartments, leather coat hangers and a bespoke lining, the 'Chivas 12 Made for Gentlemen by Globe-Trotter Steamer Trunk' (crafted from American white oak, as used in Chivas's whisky casks) is said to be a reinterpretation of a timeless classic, and showcases the craftsmanship of both Chivas Regal and Globe-Trotter. It will be displayed at Globe-Trotter's flagship store in London, and sold with all proceeds going directly to The Prince's Trust.
