[Warning: High risk of a short-circuit...](#)

Lead

Tom Hartley has installed a new 'underwater bridge' on which to present the cars for sale through his showroom in the North of England. Given the current risk of precipitation, it was a rather brave decision to introduce the new feature with a pair of the latest electricity-infused hypercars...

Given his experience of more than 40 years in the business, however, we're sure he kept a close eye on the weather forecast during the shoot - particularly given the current demand (and sky-high values) for the latest crop of hybrid hypercars. Indeed, both the LaFerrari and the stunning, Martini-liveried Porsche 918 are now sold, but he still has plenty of desirable cars, both new and classic, currently available.
