
1985 BMW 6 Series

Lot sold	USD 0 EUR 0 (listed)	Drive	LHD
Year of manufacture	1985	Condition	Restored
Lot number	114	Location	
		Exterior colour	Other
		Car type	Coupé

Description

French title

Chassis # WBAEE310701051218

- Powerful car, infrequent model
- 2 owners since new
- Maintenance properly monitored
- No reserve

Interesting fact: the Coupée M635 CSI is the only BMW road car to exceed 250 km/h. Actually, the maximum speed in later models have all been deliberately limited to 250 km/h. An upscale Coupée from the Munich brand, the M635 featured an engine specially developed by BMW Motorsport (as can be seen by the "M" of its name), a six-cylinder 24-valve 3.5 liter unit developing 285bhp. Elegant, roomy with two rear seats, it offered the dual personality of a luxuriously finished and equipped car, as well as a powerful and fast GT, able to eat up the kilometers effortlessly.

This M6 was delivered new to its first owner in January 1985 by the BMW dealer of Rouen. It then changed hands, to the current owner, in 1996 and was maintained by his mechanic, permanently, in a full-fledged garage that was installed in the owner's Normandy property. Between 2005 and this year, several important elements and components were changed: the complete clutch system, the front axle, the starter and the complete exhaust line in 2013, the four brake discs this year when the odometer showed 146,500 kms, which is the current mileage of this superb automobile. It is in a beautiful grey shade, with black leather interior. This car has aged well, its seats seem barely worn,

and its carpets are in excellent condition. The user manual that comes with the car, is presented in a leather pouch. Also, its original tool kit is in the trunk, and is 90% complete. The BMW M6 was the most powerful and the most efficient of the 6 Series. This car, with its continuous and well-documented history and the fine state that it is in, represents a great opportunity.
