Boasting a catalogue crammed with collectable classic and modern cars, Motostalgia's Amelia Island 2016 sale – taking place on 12 March – promises to be a good market barometer. We've chosen our favourite lots...

There's an interesting cross-section of the current collector-car market on offer at [Motostalgia's Amelia Island 2016 sale](#). Firstly, there are established classics such as the Ferrari 330 GT or Alpine A 110. Secondly, there are many popular modern classics, such as the first BMW M6 and the Porsche 993 Turbo. And thirdly, there are the ultra-rare, special edition cars that have become the darlings of the auction world (particularly in America) – think Ferrari 599 GTO and SA Aperta, or the coveted Land Rover Defender Heritage Edition. We're looking forward to seeing the results.
