## Fly fishing is the hobby of choice for Bentley Bentayga owners...

**Lead**  
Bentley is clearly anticipating that its customers will be using their Bentaygas on more than just the school run. Capitalising on the luxury SUV's 'go-anywhere ability', the marque has revealed a special edition Bentayga aimed squarely at fly fishing enthusiasts...

### Right to the riverbank

Bentley's bespoke coachbuilding division Mulliner has equipped the Bentayga Fly Fishing's boot with an installation in which all the essentials for a day of fly fishing can be stored. This includes a 'master tackle' station, a refreshment case and, most importantly for the preservation of your sumptuous leather interior, a waterproof trunk for your waders, complete with electronic dehumidifier to keep things fresh. As you'd expect, the whole unit has been crafted with Bentley's finest quilted leathers and woods – never has such a utilitarian hobby been made to feel so luxurious. And, given the capacity of the Bentayga's boot, you can laugh off bystanders' comments about the size of your tackle.
