

CLASSIC DRIVER

[From the ocean to the snow on this rollercoaster road trip](#)

Lead

Beginning at the Wheels & Waves festival in Biarritz, two Czech bikers from LIP Productions embarked on a mammoth journey to the Pyrenees, riding road bikes they built themselves. The resulting film captures the maverick spirit of motorcycling beautifully...

Ups and downs

If the trailer for 'Howl Seat - A motorcycle adventure from the ocean to the snow' is anything to go by, the full-length film set to be released by [LIP Production](#) in the near future should be a thrilling rollercoaster ride. There's surfing, partying, crashes, bodged repairs, and breath-taking scenery, and that's just the start. It's too easy to dream about going on such an adventure, and we admire these guys for going out and actually doing it, the hard way.
