## You've never seen these iconic racing cars in so much colour

23 November 2016 | Alex Easthope

*Fortunately for Arthur Schening, he was able to combine his 20 years of experience in design and illustration with his fierce passion for historic racing cars, and the resulting bold and colourful series of prints bring to life motorsport history's most important cars...*

### **Colourised**

It was back in 2014 that we first saw Arthur Schening's fabulous racing car illustrations, in which he depicted iconic racing cars in brighter and bolder colours than period photographs could ever offer. Since then, Schening has illustrated a further raft of legendary racing cars, including the Chaparral 2E, Ferrari 250 GTO and the Bugatti Type 35. Each print - measuring 13" by 19" and printed on 65lb uncoated cover stock - is priced at \$30, with limited editions to follow.
