

# CLASSIC DRIVER

## [Shopping certainly isn't a chore at Techno Classica Essen 2017](#)

### Lead

As one of the largest trade shows on the European calendar, Techno Classica in Essen is never one to disappoint, and thanks to the many Classic Driver dealers exhibiting, this year might just be the best yet...

### Exceptional Essen

Among the myriad of cars, motorcycles, automobilia, and parts for sale, filling 21 halls of the Messe Essen exhibition centre, hundreds of thousands of devoted automotive fans will assemble between 5 and 9 April to witness the overwhelming spectacle that is Techno Classica, with a large number of Classic Driver dealers on site, boasting stands teeming with remarkable vehicles to suit every taste. A brief glance at the offerings from the dealers shows Italian icons, including the Ferrari 275 GTB, Lancia Aurelia B24S Spider America, and Abarth 750 GT Zagato; Porsche royalty, such as the 993 GT2, 924 Carrera GT, and 356 Carrera GS; and the best of British, in the form of the Aston Martin DB6 Volante, manual Vanquish, and much more. So, should you be looking for a new car for the summer, Essen is a destination you're going to want to visit this week. Coupled with a special exhibition that features a number of racers from the 1957 Monaco Grand Prix, as well as a look back at 135 years of the automobile, we think the 29th Techno Classica has all the ingredients to be the best yet.
