

CLASSIC DRIVER

[This Giugiaro-designed Seiko is a solar superstar](#)

Lead

The latest in the illustrious line of Seiko and Giugiaro collaborations, the Seiko Astron Giugiaro Design Limited Edition is a nod to the past with some Italian flavour...

Solar-powered, satellite-connected

As the 1980s aesthetic continues its resurgence, the new Astron harks back to the Seiko and Giugiaro watches worn in the cult-classic *Alien* movies. With its solar technology powering the famous GPS world-time function that sets the Seiko apart, the 46.3mm titanium body is paired with a titanium bracelet and retains the trademark offset case designed to allow the chronograph buttons to be operated at speed on a motorcycle. It's the ideal mix of form and function and surely the perfect accessory for your Giugiaro-designed motorcycle...
