[Inject some dolce vita into your home with Riva's boutique collectables](#)

Lead

Not enough time to take your Riva out on Lake Como this summer? Not a problem. With the new Riva Boutique, now found in the Classic Driver Market, fans of the elegant and refined design of the ever-so-popular yachts can now bring those stylistic elements into their homes...

Riva inside, inside Riva

From furniture, like the Aquariva lamp and the Aquarama table, to handmade wooden toys, such as the Riverama and Truck, each piece boasts unmistakable style and incredible craftsmanship that could be none other than Riva. On rainy days, when cruising around the coast isn't ideal, you can cosy up on some plush Riva cushions — in signature aquamarine — and delve into a story of boat racing in the 1930s with *Riva Corsa: The Origin of the Myth*. And if you do manage to squeeze in some time on your Riva yacht, [the boutique](#) can deck you out in some classic and understated apparel for both men and woman.
