Lot sold		Drive	LHD
Year of manufacture	1961	Condition	Used
Number of seats	2	Location	
Drivetrain	2wd	Fuel type	Petrol
		Exterior colour	Other
		Car type	Coupé

Description

Aston Martin - DB4 - 3rd series - 1961 - matching numbers - concours condition with complete vehicle history since it was built

Inline-six 3670cm³ - 4-speed manual transmission - 15 km driven since its complete restoration.

The superb line of the DB4 owes much to the use of the "Superleggera" technology developed by "Carrozzeria Touring" of Milan. Only 1185 copies were produced with this elegant and legendary line that consists of aluminium panels welded together on a tubular trellis. This exquisite combination of luxury, refinement and high performance represents the birth of the prestigious tourism.

This DB4 entirely restored in the rules of the art is presented today in a competition condition. This car has only driven 15 km since its restoration, and is carefully stored under a tarp. The restoration records will be supplied to the buyer with a full maintenance history from 1961 to 2015. The vehicle has a Belgian registration and a valid MOT.

This vehicle can be viewed and retrieved in Nieuwpoort, Belgium.

This is a used vehicle. It is highly advisable to view the vehicle before bidding, to avoid disappointment afterwards. To arrange a viewing appointment or for more info, please contact Catawiki. Offers are excluding transport and export, unless otherwise indicated.
