Description

1963 FERRARI 250 GTE 2 + 2

Red inside.

V12 Engine V12 of 240ch.

4 speed 4 synchronized + overdrive.

This vehicle is in the course of restoration which will come to end in 2 months.

State of the body :

The car was completely cleaned in the sheet steel in our workshops.

All the parts damaged by the rust were carefully cut and re-formed as originally with pose of tin.

The body underwent a protection against the rust, it was put in primary mono composing, impression, then put in primer two-component and in paint with 3 master keys(passes) of varnish.

Finally, it was made polite glossy one on the automobile for an incredible finishing.

All the outer ornaments were chromes.

All the joints are new.

Mechanics :

The engine was rebuild in our workshops.

The gearbox has a soft and perfectly staged functioning.

Front and rear suspension are new.

Front and rear brakes are new.

Front drive train are new.

Fuel tank is new.

All hoses has been replaced.

Electricity :

The electricity is done up like new.

Inside :

Leather trim and new carpet with the choice of a typical leather Coated of high quality has been done.

Only 950 Ferrari 250 GTE has been built.

The car is matching number.
