## [These modern classics are high-mileage heroes](#)

### **Lead**

In a market where prices are so tied to mileage — and with the lack of distance travelled by a certain three-seater supercar on everyone's lips — these modern classics have mileages that may put off speculators but will entice real enthusiasts...

When all is said and done, regardless of their classic or modern classic status, these cars were built to be driven, and the below selection of varied metal, with more digits on their odometers than most, are begging to be driven even further. Whether you view them as on the way out or just run in, these modern classics are ready for many more miles ahead...
