Expect to feel Intensa Emozione when you see Apollo's new hypercar

30 October 2017 | Lianna Bruhlman

Like the Greek god, Apollo Automobil strives to be a beacon of light in the car world, and it's sure brightened the market with its new hypercar — the Intensa Emozione. The company's ethos brought to life, the car is sure to evoke all kinds of emotions...

More than myth

With a passion for automotive art, the connection between driver and car, and a bespoke and emotional driving experience, the creators of Apollo have turned their personal desires into reality with their all-new hypercar — the Intensa Emozione. Fitted with a 6.3-litre, naturally aspirated V12 and a six-speed Hewland pneumatic gearbox, the car has put out some impressive numbers: a 0–62mph time of 2.7 seconds, a top speed of 208mph, and an overall output of 780bhp and 561ft-lb of torque. And if you’re looking for more than performance, the design is just as impressive, with its sharp angles, see-through panels, gullwing doors, and a leather and carbon interior. Apollo will be making only 10 units, and at over €2m a piece, these intense emotions sure come at a price — maybe Plutus could help us out...
