Paul Smith and Globe-Trotter define great British design

21 April 2018 | Alex Easthope

Paul Smith and Globe-Trotter — they're two brands that define great British design and craftsmanship. On the occasion of the famous design fair Salone del Mobile in Milan, they've teamed up to create a limited-edition trolley case...

Globe-Trotter's classic navy trolley case has been updated by legendary British designer Paul Smith in his signature style. His trademark Artist Stripe is featured in various different ways, such as on the case's handles and straps and on the coloured corner protectors. The case is limited to just 120 pieces and will be on show in Paul Smith's Milan store for the duration of Salone del Mobile. For the style-conscious traveller, this is one sure-fire way of standing out.
