
1991 Aston Martin Virage

Lot sold	USD 0 GBP 0 (listed)	Drive	RHD
Year of manufacture	1991	Condition	Used
Mileage	99 018 mi / 159 355 km	Location	
Gearbox	Manual	Exterior colour	Other
Lot number	TBA	Car type	Other

Description

"Introduced at the October 1988 Birmingham Motor Show to almost universal acclaim, the Virage was the first new Aston Martin for 18 years. A satisfying blend of muscularity and understatement, its sleek aluminium silhouette was the work of John Hefferman and Ken Greenley. Based around a modified version of its Lagonda sibling's sheet steel platform chassis, the newcomer benefitted from revised wishbone independent front suspension, a lightened de Dion rear axle, four wheel disc brakes and power-assisted rack and pinion steering. Suitably reworked by Callaway Engineering of Connecticut, USA (using four valve cylinder heads, hydraulic tappets and Weber electronic fuel injection), its 5340cc, quad-cam V8 engine not only satisfied forthcoming emissions legislation but also developed some 330bhp and 350lbft of torque, allied to a choice of either four speed automatic or five speed manual transmissions.

This handsome example is presented in metallic blue with a cream leather interior. Accompanying the car is a full Aston Martin service history, all Aston Martin manuals and service book. This car has covered a mere 43,000 miles from new and has the luxury of electric seats. The car is currently SORN and will need some re-commissioning. These brutish V8 British sports cars are highly sought-after and are still exhilarating to drive.
