[Garage Italia's revived Fiat Spiaggina is a thing of sheer summer beauty](#)

Lead

Just in time for the summer, Lapo Elkann's Garage Italia Customs outfit has revealed an ultra-chic modern interpretation of the Fiat Spiaggina, created in collaboration with Pininfarina to mark the original car's 60th anniversary...

Just as the original topless Fiat Spiaggina models were the preserve of the glamorous and the wealthy, Garage Italia Custom's Fiat 500-based Spiaggina is an exclusive concept poised to be built in very small numbers. With its chic light-blue and white colour scheme, leather bench front seat, and chopped windscreen, this retro convertible is crying out to be driven slowly along the promenades of St. Tropez or Ibiza. If you can't quite stretch to the new Spiaggina, however, Fiat has created a limited edition 500 with aesthetic features inspired by Garage Italia's car.
