Happy birthday Porsche - here's to another 70 years and even more curves!

Lead

The Grossglockner High Alpine Road in Austria occupies a special place in the history of Porsche – its endless curves and bends have served as a test-track for the marque right from the start. In its 70th year, Porsche threw the ultimate birthday party at the Glockner....

You can usually tell the quality of a party by the names on the guest list. For [his celebratory gathering on the occasion of Porsche's 70th birthday on the Grossglockner High Alpine Road](#) in Austria, Munich photographer and curve hunter Stefan Bogner invited 'only' 17 cars and their owners. But the selection had it all – from a replica of the legendary Type 64, a 911 ST, and a 550 Spyder to Rudolf Lins' 904 Carrera GTS, a 911 Safari, and the new Mission E Concept.

A Porsche Carrera 6, a 962, and a 718 RSK Spyder with Pikes Peak history only served to increase the VIP factor. In addition, the Le Mans class-winning 911 ST 2.5 was present, after its recent restoration by Porsche. And, of course, there were modern rarities such as a 918 Spyder, a GT2RS, and a genuine 911 police car from Zell am See to keep everyone in check. We can't think of a better or more beautiful way of celebrating Porsche's 70th anniversary.
