### Description

"After 25 years from the introduction of the first-generation Range Rover, the second-generation Range Rover model, designation P38A, was introduced for the 1995 model year with an updated version of the Rover V8 engine. The new model offered more equipment and premium trims positioning the vehicle above the Land Rover Discovery to face ever increasing competition in the SUV marketplace. These superb motorcars are the choice for any discerning motorist with the HSE represents the highest specification in terms of luxury and options.

This three registered owner example was originally supplied by main dealer, Barretts of Ashford, with subsequent servicing undertaken by the same specialists. Indeed it has had a new engine fitted by them some years ago under warranty. The current owners have kept it for approximately three years although covered a little over 500 miles only. During that time, new suspension airbags and suspension compressor have been fitted as well as a service some six months ago. The dark metallic blue paintwork is reported to be blemish-free which matches the good-quality tan leather interior. The alloy wheels are in good order and tyres, excellent. Sold with a full one year MoT test certificate, this fine example is offered without reserve."
