Some of the best sports cars from the late-1990s and early-2000s came from Munich. And we predict that these affordable BMWs are classics of the future...

The more digital, comfortable, and autonomous cars become, the greater the longing for a pure and simple driving experience. Anyone searching for an agile sports car with a manual gearbox and rear-wheel drive to use at the weekend should look no further than these modern BMWs built around the turn of the New Millennium. Cars such as the Z3 and Z4 M Coupés, M3 CSL, or 1M Coupé are charismatic projectiles that have been undervalued for a long time. With the increasing desire for back-to-basics driving, however, we can't imagine prices will remain where they are for too much longer. These are our current favourite BMWs from the Classic Driver Market.
