Description

"The 944 was to feature new styling based upon the Le Mans styled Porsche 924 Carrera GT, along with a brand new Porsche designed and developed 2.5 litre, four cylinder engine. Sales of the 168bhp coupé went through the roof with a massive 26,800 Porsche 944s being produced by the end of 1982. To put this figure into context, the entire Porsche company made just 28,000 cars in 1981. This particular car is offered in wonderful original condition throughout, presented in Crystal Green metallic with linen pinstripe interior. Its lively four cylinder engine is mated to a five-speed gearbox and enjoys the use of a factory fitted sunroof, Porsche crests on the wheels, electric seats and electric windows. The car comes with a good service history including 16 stamps in its original service book and MoT test certificates from 1994 to 2018, accompanying this is the present MoT test certificate which expires in September 2019. This fabulous example presents great value for money and to say you own a Porsche has a certain cachet!"
