Drivetrain	2wd	Exterior colour	Gold
Lot number	23751581	Car type	Other

### Description

This classic car is for auction at online auction platform Catawiki. Please click here to place a bid and to find more information about this. Imported from California is this very rare Mercedes 123 Sedan, W123 Series, equipped with a 5-cylinder 3.0 litre Turbo-diesel engine. This concerns the American model which is entirely rust-free and moreover highly luxurious with its automatic air conditioning, sliding roof, tempomat, power windows, power sliding roof, radio, tinted glass, armrest, alloy rims and a beautiful MB-tex interior in the colour beige. The car starts, runs and drives perfect. The automatic transmission shifts nicely, the car has a tight feel on the road, it has a lot of power, the heating works as does the sunroof. True driving pleasure. It has 4 new tyres and a fully intact and rust-free bodywork, also underneath the car and inside the wheel arches everything looks virtually like new, unfortunately the paintwork has eroded due to sun. The car comes with Californian title and import documents. This special classic Mercedes 123-Sedan can be viewed and picked up in Herkenbosch, the Netherlands.
