Description

This classic car is for auction at online auction platform Catawiki. Please click here to place a bid and to find more information about this. Beautiful 1965 Volkswagen Beetle in the original condition. A flat windscreen, a fuel intake under the bonnet, the seals in good condition. With a steering wheel from a younger model, one of the grille guards on the fender is missing. The car has been waiting 5 years for a professional restoration in my garage. An excellent restoration material. The body is in very good condition, with signs of slight corrosion and paintwork loss. The engine starts and works correctly. Despite being out of use for a very long time, the car rides and stops. The car has not been used much, considering its age. The floor is either professionally restored or original. A perfect base for restoration. I invite you for an inspection and purchase. VIN: 115577533The possibility of a cheap transport anywhere in the world for an additional charge, after winning the auction.
