Desmoquattro

Price	USD 18 479 GBP 14 000 (listed)	Condition	Used
Year of manufacture	1996	Location	
		Motorcycle type	Street
		Colour	Yellow

Description

Based on the legendary Ducati 916, the 748 is a smaller-engined, less wild alternative, which with its narrower rear wheel actually gives for a better handling and more controllable bike. Its 750cc unit gives 103bhp, with 54 ft-lb of torque at 11,500rpm, which is far plenty enough to enjoy on both road and track. Designed by Massimo Tamburini, it is famously known as being one of Ducati's best looking bikes and will surely go down as a true thoroughbred classic.

To match its performance and looks, this bike has a glorious carbon fibre Termignoni exhaust system to refine the distinguishable V-Twin sound. Alongside Showa shock absorbers on the front, an adjustable Ohlins rear system and Brembo brakes, the bike offers all that is essential for spirited riding.

This bike has covered just 9,754km and comes with an extensive service history file. This also includes a spare key, complete stamped warranty booklet, original parts and dealer books, and the original owners manual. It also benefits from a Datatag security system. 2 former keepers, and lives in our secure dehumidified storage facility.
