Description

Chassis no. WPOZZZ99Z8S794137

Engine no. M97/70S Single-owner car registered on 17 April 2008 in Milan, 17,000 km covered.

It has never raced. The lower part of the car and the front spoiler are in absolutely perfect condition.

The purchase invoice is available, as is a Porsche declaration stating that, on the basis of an appraisal carried out, it would qualify for "Porsche Approved" warranty coverage. Version that has great historical value for the Porsche house. At the time of its public unveiling in November 2007, the 911 997 GT2 was Porsche's fastest and most powerful road car, offered for sale, ever. It was also the first Porsche vehicle to be equipped with the launch control feature.

Tough and pure, wheel-drive car with a 6-speed manual gearbox.

Still equipped with its original 3.6-liter, six-cylinder engine, double turbo with variable geometry, generating 530 HP and 620 Nm of torque. It reaches a top speed of 329 km/h.

Titanium exhaust system completely original.

Still wearing its first paint, black over black leather interiors.

Probably impossible to find another in such excellent condition. Perfect in every detail, practically like new.

Perhaps the last opportunity to take home a "new" Porsche 997 GT2. This car would make an absolutely fantastic, and super-fast, addition to any Porsche or sports car collection.
