## Autodromo introduces Corsica Blue version of the Group B Series 2

**Lead**

For over 60 years, the Mediterranean island of Corsica has played host to one of the most heart-stopping rallies of them all: Tour de Corse. Its golden era was undoubtedly the 1980s when snarling Group B titans and their heroic pilots ruled supreme. Enter the Autodromo Group B in Corsica Blue...

**B is for Blue**

We're big fans of Autodromo's Group B watch, with its clever and refreshingly original design, retro styling, and intrinsic link to the golden era of rallying. In a further nod to what is commonly regarded as the last truly romantic era of motorsport, the American watch and accessories brand has revealed a bold bright blue-dialled version of the Group B Series 2 with pastel-pink hands and markings, honouring the island of Corsica, the stage on which some of Group B's greatest battles were fought. It's also unapologetically '80s, as the fun Miami Vice-style promotional photos show. If you're in need of a watch to wear while you're behind the wheel of your Lamborghini Countach this summer, then look no further.
