23 September 2019 | Jan Baedeker

The angular Volvo estate has always been revered for its clear and unpretentious design language. In addition to the family-friendly base models, there were always a handful of models that were true Jack of all trades...

We've always had a soft spot for them, but ever since the Dutch dealer [Klassiekerhuis](#) launched a range of fast, rare and stylish Volvo estates for sale in the Classic Driver Market, our love for the edgy Swedish boxes-on-wheels has been rekindled. In our opinion, the following Volvos possess all the characteristics of future classics.
