Virtually every milestone modern supercar is offered at this auction

27 September 2019 | Classic Driver

For new buyers looking to start a collection of the most desirable modern supercars, Bonhams would be only too happy to take the legwork out of your search. These are our picks from The Bonmont Sale in Chéserey, Switzerland, this Sunday...

Poised to take place at the prestigious Bonmont Golf & Country Club in Switzerland on Sunday, [The Bonmont Sale](#) by Bonhams includes an outstanding private collection of 25 rare modern sports cars, supercars and hypercars, which will be sold on behalf of the State of Geneva and entirely without reserve. In total, Bonhams expects the collection to realise in excess of 13m euros.

From the so-called 'Holy Trinity' – a McLaren P1, Ferrari LaFerrari and Porsche 918 Spyder – finished entirely in bright yellow to one of just nine Lamborghini Veneno Roadsters built to celebrate the marque's 50th anniversary, the collection hits virtually every key nail on the head when it comes to modern-era automotive exotica. Also included are an Aston Martin One-77, a solid-blue Bugatti Veyron 16.4, a Koenigsegg One:1 and a bright yellow Ferrari Enzo. You can find our 10 favourite supercars from the collection listed below or, alternatively, browse [the entire catalogue for the sale in the Classic Driver Market](#).

The best modern supercars from Bonhams in Switzerland
