-

Description

The Aston Martin Project Vantage Design Concept for a "Supercar" of the future Aston Martin

Project Vantage In January 1998 Aston Martin released to the world that the Design Concept for a "supercar" of the future was being launched. The press release continued to read: A prototype design concept for a totally new advanced technology 200 mph plus Aston Martin "Supercar" of the future is to be previewed at the 1998 North American International Auto Show in Detroit. Project Vantage is the direct result of close and continuing cooperation between engineers and designers at Aston Martin, Ford Advanced Vehicle Technology, Borg Warner, Magnetti Marelli, AP Racing, ITT, TRW, and other Aston Martin suppliers.

This is a very special motor car, not only in the Aston Martin world but the future of supercars in general. The prototype for the future and current production cars.
