[Bonhams to auction prints and editions from Calder to Warhol](#)

Lead

Bonhams' 'Modern & Contemporary Prints & Multiples' auction in New York on 1 November will feature nearly 200 prints. From Calder to Warhol, all the great 20th-century artists are represented...

Paintings by Alexander Calder, Pablo Picasso, Roy Lichtenstein and Andy Warhol might now cost a fortune, but prints and editions present the opportunity to own an original piece from these great artists without having to pledge millions. Bonhams' ['Modern & Contemporary Prints & Multiples'](#) sale will offer some very interesting pieces.

While perusing the catalogue, we were impressed by the study of a packaged Studebaker by Christo and Jeanne-Claude, a blue-haired nude by Roy Lichtenstein, a swimming pool by David Hockney and a 1970s cover shot designed by Robert Rauschenberg for *Time* magazine. There is surely a vacant space in your living room for a mid-century artist.
