#### EXTERIOR

Believed to be the only FF to leave the factory in the fabulous finish of Blu Le Mans, it remains today in exemplary condition. There are no marks, chips or scuffs across this cars surface, just a deep glossy coat of pristine paint which has been perfectly preserved by full PPF treatment.

A 4 wheel drive, 4 seat, 2 door 'Shooting-Brake' seemed absurd upon its announcement but in the flesh Ferrari design experience made it work. A long wheel base car with elegant curves and defined lines all come together to produce a silhouette that portrays a balance of beauty and drama like only the Italians can.

The sheer scale of the sculpted bonnet and rear diffuser do more than allude to the performance potential of the 4 seat and the design of the FF, a culmination of form and function that has paved the way for the latest generation of Ferrari's.

#### INTERIOR

Finished in Crema Leather with Blu Sucro detailing the interior of this FF offsets the Blu Le Mans coachwork exceptionally well. The seats present in immaculate condition, showing no signs of wear with the quality of the leather immediately apparent. The design and exceptional condition carries throughout the interior, a testament to the care and attention this Ferrari has been subject to over its life.

Comfortable, luxurious, fast and practical, Ferrari produced a car that can comfortably seat 4 adults without compromise with space to spare in a huge 450l boot that can fit a full luggage set or even a bike with the seats folded down.

#### ENGINE & TRANSMISSION

At the time of its introduction the FF had the largest road-going Ferrari engine ever produced. The 6.3L direct injection engine fires into life with the press of a button and sounds absolutely glorious, in a way that only a V12 can. It develops a stratospheric 651 BHP, pushing the Ferrari from 0-62mph in just 3.7 seconds and then rapidly onward to a dizzying 208mph.

Producing one of the fastest GT cars in the world was no easy task with Ferrari's expertise truly tested to make the FF a usable super car and thus the decision to utilise a 4 wheel drive system, a first for Ferrari and one they developed from scratch. Their revolutionary system cut weight by 50% of a traditional set up ensuring the cars performance and handling along with huge grip could be utilised in any conditions.

With 8 main dealer service stamps in its service book, the last of which was carried out just 4 months ago, the performance and mechanical integrity of this vehicle are as sharp and reliable as Ferrari intended.

#### WHEELS, TYRES & BRAKES

Optional 20" Forged Diamond fit the long wheelbase of the FF perfectly, giving it a low and aggressive stance. They sit in perfect condition, free from any unsightly chips or scuffs. They are wrapped in premium Michelin Pilot Sport tyres which were fully aligned and fitted to ensure optimum performance.

The Carbon Ceramic Brakes are a necessity on the FF, with so much grip and power they offer huge stopping power and consistency.

#### HISTORY FILE

This FF was ordered and specified by Meridien Ferrari in December 2011. For the past 8 years the car has been maintained meticulously, solely by the supplying dealer with 8 stamps in the service book.

The car is presented with its full original book pack in its leather wallet, correct spare key and

tracking fobs.

An exceptional example, this FFs specification and history are second to none.

Please visit our website for a full write up and additional photographs.

The car is supplied having had an extensive intake inspection. Warranty, Finance, Part Exchange and Worldwide shipping are all available on request.

Buy with confidence: we operate from a 10,000sq ft indoor showroom with the support of a fully functioning 4000sq ft preparation and service centre that includes a professional photo studio that is used by Top Gear, McLaren and Alpine Stars. We have a passionate team that work incredibly hard to ensure all our motor cars go through our rigorous and unique sales process so they are presented in the best possible condition and light, then found homes all over the world.
