Description

The Isetta is an Italian-designed microcar built under license in a number of different countries, including Argentina, Spain, Belgium, France, Brazil, Germany, and the United Kingdom. Because of its egg shape and bubble-like windows, it became known as a bubble car, a name also given to other similar vehicles. This particular example is an original British built Isetta and its original buff log book suggests it has spent all of its life here in Hampshire. This beautifully restored example needs nothing and is ready to go!
