### Description

---

Daimler Double Six Vanden Plas. This specimen was delivered new in Switzerland in 1978. The Daimler has only traveled 126,433 kilometers and has always stayed in the Lugano / Lamone region, Switzerland. The car was registered in the Netherlands for the first time on 27 July 2007. This is a Series 2 with the famous 5.3 V12 engine and special Vanden Plas bodywork. This is also the last series with the beautiful chrome bumpers. The car never needed a restoration and is in a super original condition. The body is beautiful, the sheet metal is tight and has correct fits. The bottom is original and stainless. The paintwork has been renewed in the past and is good. The roof is made of black "Everflex" vinyl. The interior is original and has the right amount of patina. Equipped with various luxury options, including air conditioning, automatic transmission and all-round electric windows. Documented with original board folder, service booklet and Swiss Abgas Wartungs document. In short, a Daimler with a low mileage that is typical of Swiss and cared for! To get a good impression of the car we advise you to come to one of the viewing days.

This car will be part of an online auction. Classic Car Auctions organizes the annual online auction on behalf of Gallery Aaldering. This time more than 200 classic cars from the Warehouse are being

offered for auction. Bidding starts at € 1.000,-. There will be six viewing days in Brummen. The online auction will start on Thursday 9 January 2020 and will close on Wednesday 29 January 2020 from 20.30 hours. For more information and the other lots look on our website [www.classiccar-auctions.com](http://www.classiccar-auctions.com).
