Description

Incredibly beautiful Maserati Ghibli 4.7 coupe. Newly supplied by ABC Motors or Tacoma, WA, USA in 1967. This is a special first series, namely chassis 128 built in November 1967. The car has spent most of her life in California and was sold to the Netherlands and in 1999 2013 to Italy. This very early specimen can be recognized by, among other things, the double calipers on the front, double thermostat, so-called "Drop Down" tailgate, Smiths meters, Marchal headlights, stainless steel decorative strips in the dashboard and Borrani / Campagnolo rims with central wheel nut. Performed in a one-time color combination "Avario Santa Anita" in combination with a beautiful "Pelle Nera" interior. This color was supplied at the request of the first owner. Reportedly the only Ghibli delivered in this combination. This specimen was fully and very professionally restored and technically overhauled in 2014-2015. The gearbox, suspension and the like have also been completely overhauled / renewed. This involved a complete "Bare metal" restoration that was carried out in Europe. This process is of course fully documented by means of a comprehensive restoration report with more than 400 photos. The car has been fully returned to its original condition and is in a sublime condition. The car drives fantastic and is easy to operate. The body is very good, very sleek and has beautiful paintwork. All fitting of the sheet metal are as they should be, perfect! The bottom is completely free of rust, very good and very original! The car has its original and therefore "Matching Numbers" engine. Of course fully certified by Maserati Classiche. Recently fitted with brand new Borrani wire wheels with new tires. A first series of Ghibli in an extremely rare color and in TOP restored condition! Unique! To get a good impression of the car we advise you to come to one of the viewing days.
