		Exterior colour	Other
		Car type	Other

### Description

The specimen in our showroom is a convertible with the hardtop welded on the bodywork. This very rare **Porsche 356B T5** model is universally recognized as Notchback and according to a recent census, **the surviving Notchback B T5s are around a hundred**. The engine is the super-tested 4-cylinder of Volkswagen origin, 1600 of displacement, which on the featherweight of this Porsche is very fun and reliable. The car is in excellent condition, a must-have for Porsche enthusiasts and for those who want a vintage car with great value, which represents an investment to be driven. The mechanics and bodywork are absolutely impeccable, and its driving simplicity leaves speechless anyone who drives this "coupe".
