Year of manufacture	1981	Condition	Used
Drivetrain	4wd	Location	
Lot number	89	Exterior colour	Beige
		Car type	SUV

Description

French title

Chassis # BJ43900562

- Comprehensive restoration, with desirable options
- Significant optimizations of the model and numerous accessories
- A showcase of French knowhow
- No reserve

The BJ 43 on offer is certainly one of the finest examples on the market. This statement is justified by the work carried out by the Teseven Toyota Classic workshop, which has developed unique knowhow in the restoration and optimization of Land Cruisers. First registered on March 26, 1981, it recently underwent a comprehensive restoration. A very important folder of photographs, which we suggest interested buyers to consult, testifies to the extent of the work done and the quality standards to which they were executed. All the elements, from the aluminum body to the vinyl upholstery have been re-conditioned. The car was repainted in its original "dune beige" color after Dynamat soundproofing of the highest level had been done. Its 4-cylinder diesel engine, transmission and 4-speed gearbox have also been overhauled. It has a very comprehensive equipment list, with a 12-volt electric winch, ventilated AV discs, electric power steering, a custom gallery, long-range headlamps, Koni shock absorbers, a stainless steel exhaust system, four new BF Goodrich tires and a RetroSound Bluetooth set. Completely restored in France, this BJ 43 is a superb example offered at a more than attractive estimate, a unique opportunity indeed.
