Description

Introducing The Mechanists Grand Tourer Bracelet. Each Bracelet is crafted by hand in Sterling Silver 925 thanks to the artisanal savoir-faire of our British workshop.

The GT collection celebrates a type of sports car that is designed for high speed and long-distance driving. The most common format is a front-engine, rear-wheel-drive two-door coupé with either a two-seat or a 2+2 arrangement. Grand tourers are most often the coupé derivative of luxury saloons. it is built for adventure, glamour, romance and not for basic transportation.

According to one author, "the ideal is of a car with the ability to cross a continent at speed and in comfort yet provide driving thrills when demanded" and it should exhibit the following.

The Mechanists

Title Mr

First name Hedi

Last name Sersoub

London
