Number of doors	2	Exterior brand colour	Gulf Blue
Performance	130 PS / 96 kW / 129 BHP	Interior brand colour	Pepita / Black Leatherette
Drivetrain	2wd		

Description

- Lightweight 911 R replica
- Perfect car for classic rally's
- Matching numbers!
- COA + FIVA
- Famous lightweight R-Gruppe style

While the 2.7 Carrera RS is probably the first car to come to mind when enthusiasts think about classic racing 911s, the 911R was the hardcore, lightweight 911 in '67-68, of which 23 cars were actually built. This a tribute to this magnificent car, based on a short wheel based '68 911.

The rust free and perfectly straight chassis is still powered by its original and thus matching engine and gearbox. The gearbox was revised completely and equipped with a new Powerlite lightweight

startermotor. The engine is maintained to the highest level and an electronic ignition was recently installed together with an 75amp alternator.

The suspension was revised as well and equipped with Koni shocks. Inside you'll find the mechanical Brantz S2 and Blunic II navigator.

Recently, the headlights and bulbs were all renewed and finished with LED lights. The lightweight fuel tank was pressurized, revised and protected with a new layer of paint.

911 R :

- Fiberglass wings (front and back) engine hood and trunk
- 100l fuel tank with central filling
- Lightweight plastic windows
- 'Louvred' rear windows
- Lightweight door panels
- 911 R lights + Cibie Palaces
- Momo Prototipo steering wheel
- 911 R exhaust & engine support

Thanks to the low weight, flat 6 engine & great looks this is an amazing car to drive and to be seen in, a real head turner!
