Lot number	120	Car type	Other

Description

"This car can be viewed in person from 14th to 18th July 2020 at our the auction site, Windsorview Lakes, Datchet, SL3 9HY

The new Ford Focus RS500 made its global debut at the 2010 German Motor Show in Leipzig.

Launched to provide the definitive driving experience for serious performance car enthusiasts. This new Ford features a muscular 2.5 litre turbocharged engine which generates 15% more power than a standard Focus RS. The RS500s impressive power is matched by an equally dramatic appearance, sporting a matt black paint finish with matching alloy wheels to deliver a powerful visual impact which is unlike any other production Ford. The models name highlights the strictly limited production run of 500 individually numbered vehicles.

Registered in September 2010 this Ford Focus RS500 is number 135 of the limited production run of 500 cars. The stunning looks and undoubted power are matched by a high level of standard equipment that includes climate control, heated windscreen, rear parking sensors, Ford key-free start, Bluetooth phone connection, Sony six CD audio system and Recaro seats which are partially trimmed in leather. When the car was launched a spokesman for Ford stated that the manufacturer was "determined to mark the end of production for the current and acclaimed Focus RS with something even more special", we tend to think that the new RS500 hits that brief perfectly. Offered to auction with a V5C registration document and a fresh MoT test certificate, this 'hot' Ford represents a good investment opportunity and is undeniably tremendous fun.

he health and safety of both our customers and team remains the utmost priority, we are therefore

operating to Government guidelines throughout viewing and auction day.
