FORMULA 1® DECADES - 80s McLaren | Collector's Edition

Price

USD 121.00

Location

Description

As Formula 1 completes seven decades of racing, this range of 8 special artworks has each one dedicated to a decade of racing from the 1950s to the present day, plus an additional one looking to the future of the sport. The McLaren MP4/4 is statistically the most successful Formula 1 car of all time, having triumphed in 15 out of the 16 Grands Prix held in 1988, with many of those victories seeing its drivers Alain Prost and Ayrton Senna take one-two finishes. Naturally, it won both the Drivers' (with Senna) and Constructors' World Championship titles that year. However, perhaps the number that sums it up best is 27 - that's the number of laps the car was not in the lead of a race over the course of the entire season!
