31.07.2017 - PDI @ Ducati Motor Holdings S.p.A  
27.02.2018 - 650 Miles - Ducati Motor Holdings S.p.A

31.01.2019 - 992 Miles - Ducati Motor Holdings S.p.A

01.08.2020 - 2036 Miles - Ducati Motor Holdings S.p.A

Building on the years of experience in developing road-going superbikes, the 1299 Panigale represented an evolution of the outgoing 1199 model and pushed the specification to a higher level.

From the new 1285cc Superquadro twin-cylinder engine, through to updates to the chassis, the new model also benefitted from a whole host electronics that featured 3 switchable riding modes and the fitment of an internal measurement unit (IMU) that resulted in cornering ABS, wheelie control and semi-active suspension to be fitted.

The Ducati Quick Shift was also enhanced to feature an auto-blipper for downshifts, and subtle changes to the traction control and engine braking control means the rider is well protected at all times.

Our original example has covered only 2037 miles and has a full Ducati stamped service history, along with the book pack & 2 original keys, this bike is available today.

One of the last big 'L-Twin' superbikes from this iconic manufacturer...
