We have a lovely refurbished 1979 Honda CX500 "Caféracer". This motor bike was supplied from new in the Netherlands and recently completely transformed to a "Caféracer", This bike takes its inspiration from the well known last century's 50's and 60's "Caféracers" This bike has a subtle understated black and "Aurora Red" finish, the latter colour is from Jaguars colour chart, more commonly known as purple. Everything has been renewed on this bike. The seat has been replaced, the tank re-sprayed and the wheels were given a new black coating. The subframe has been modified and the bike has been given lovely clip-on handlebars. Of course the characteristic heat-wrapped Megaton exhaust is part of the package! This bike is not just a good looker, mechanically it has also been thoroughly seen to. The valves have been tuned, most of the gaskets have been replaced and all fluids have been freshly replenished. The tyres and battery are also new, so this is typically a bike you immediately can get on and drive away. Gallery Aaldering is Europe's leading Classic Cars specialist since 1975!
