Description

This 39mm Heuer Carrera Montreal style is a 160th anniversary limited edition with three blue azurage counters and a blue & white opaline dial. The unmistakable Carrera name and HEUER shield are printed on the dial, which is protected by a domed sapphire crystal that gives the watch a retro appearance. The case is made of polished steel and a steel screw-down sapphire case back engraved with "ONE of 1000" numbering. It is elegantly matched with a blue alligator strap. This tribute model is powered by our Heuer 02 movement, entirely Swiss-made in TAG Heuer's Chevenez manufacture.
