We have a wonderful 1971 Maserati Ghibli Spyder 4.7 "Campana". The Campana is a bit of the oddity. Campana was a coach builder that was able to build a Spyder on the base of a Maserati Ghibli coupé. In first instance Maserati itself commissioned the Spyder conversion building a total of 125 spiders which 45 Ghibli SS Spyderys. Costs forced Maserati to stop contracting the coupé to Spyder conversion out to Campana. As a consequence potential buyers could no longer order a Ghibli Spyder from Maserati, so they took their coupés to Campana themselves. This Ghibli Spyder is in great shape. The car has recently been completely re-sprayed. During this process some minor bodywork repairs were also carried out. The resulting effect is excellent. The fine bodywork has nice and thin, correctly aligned panelwork. It has good quality paintwork with only a few minor signs of use. The car proudly stands on its lovely Borrani wire wheels with nearly new correctly sized Pirelli P4000 tyres. The hood is in good condition with only minor signs of wear. It has lovely good quality beige leather interior trim. Naturally the switches and instruments are in as good a condition as the rest of the cabin and all in good working order. Mechanically the car is also very sound. The Ghibli has a 4.7 V8 engine coupled to a ZF 5-speed gearbox. The engine produces 310 Hp, good for zero to 100 km/hr in

6.9 sec and a top of 250 km/hr. Not to shabby in a current car, stratospherically fast for 1971! With only 37,218 km on the clock the car has never needed a rebuild, just good maintenance and servicing. That this Ghibli has been treated properly is evident from the invoices dating back 5 years. €13,500 was invested in keeping the car trim. The fantastic 4.7 litre V8 engine's soundtrack is a joy in the coupé, remove the roof at your enjoyment will only multiply! The Maserati Ghibli is whatever guise a rare beast, one in this condition and a Spyder to boot is the pinnacle! Gallery Aaldering is Europe's leading Classic Cars specialist since 1975!
